## About ACRP

With more than 16,000 members, the Association of Clinical Research Professionals (ACRP) is the only non-profit organization solely dedicated to representing, supporting, and advocating for clinical research professionals. ACRP supports individuals and life science organizations globally by providing community, education, and credentialing programs. Founded in 1976, ACRP is a registered 501(c)(3) charitable organization whose mission is to promote excellence in clinical research and whose vision is that clinical research is performed ethically, responsibly, and professionally everywhere in the world.

## About ACRP Chapters

ACRP has created Chapters to foster connections among clinical research professionals and offer their members local opportunities for personal and professional growth in alignment with ACRP's mission to promote excellence in clinical research.

The purposes of ACRP Chapters are to:

- Facilitate local networking events and educational activities for members that support professional development and connections within their clinical research community.
- Increase Chapter member awareness of ACRP programs and services designed to support our mission to promote excellence in clinical research.
- Support ACRP's strategic objectives—which includes recruiting and retaining members—in the effort to represent, support, and advocate for the clinical research profession.

## Structure of ACRP Chapters

ACRP Chapters are regular (non-Board) committees of the ACRP Board of Trustees. Chapters are not separate legal entities from ACRP and are not independently managed. As such, they do not have separate bank accounts, insurance coverage, or tax filing requirements.

Chapters are supported and overseen by ACRP staff; however, all programming will be planned and executed by a Chapter's Board/Leadership Team who are considered ACRP volunteers.

## Operational Requirements of ACRP Chapters

- The Chapter must ensure all Chapter members, including Chapter Board/Leadership Team members, are active members of both ACRP and the Chapter.
- The Chapter must maintain a minimum of 25 members throughout the year.
- The Chapter must provide at least 4 activities (virtual or in-person) per year for members.
  - ACRP suggests holding meetings or events for members every quarter; this frequency builds the morale of the group and creates a more active and engaged membership.
- The Chapter must maintain a current web presence on the [ACRP Online Community](#) with up-to-date information and communicate with Chapter members on a regular basis.

- ACRP suggests Chapters send communications to their members at least every two (2) or three (3) months; this frequency builds the morale of the group and creates a more active and engaged membership.
- The Chapter is required to complete a Chapter Annual Report and an accurate Chapter Leader roster annually. Chapters must notify ACRP immediately in the event of any change in Chapter leadership.
