Maintenance of Certification Checklist

**Step 1**
Stay current! This Handbook provides the current requirements, enhancements, and other important details. Update your contact information at www.acrpn.net to receive personalized updates and reminders regarding your Certification.

**Step 2**
Complete 24 points of Continuing Education (CE) and/or Continuing Involvement (CI) activities within the last two (2) years.

Report the following information about each CE activity:
- Activity Type
- Provider
- Activity Name
- Activity length in minutes (optional)
- Activity Points
- Date Completed

**Step 3**
Renew or join ACRP’s membership while applying if you intend to be a member and take advantage of the reduced member rate. Membership is **not required** for Certification.

**Step 4**
Submit your application (online or printed method) complete with all reported points and payment. Apply online and receive an instant e-mail confirmation of receipt. Allow two (2) weeks for an e-mailed status update if submitting printed application.

**Step 5**
Do you hold more than one certificate and plan on maintaining all designations at once? If so, you are eligible to receive the multiple designations $50 USD discount. You can now apply online!
About Maintenance of Certification

The goal of the Certification process is to ensure, as much as possible, the continuing competence of each certificant and maintain the professional standard of those engaged in clinical research.

The purposes of the Continuing Competency requirements established by the Academy are that CCRCs, CCRAs, CPIs, and ACRP-CPs continue to:

- **obtain** current professional development information;
- **explore** new knowledge in specific content areas;
- **master** new clinical research-related skills and techniques;
- **enhance** approaches to effective clinical research, both within their specified job role and beyond;
- **further** develop professional judgment;
- **conduct** clinical research in a safe and ethical manner.

Maintenance of Certification Requirements

**Maintenance of Certification** is required every two (2) years. Each candidate for Maintenance must demonstrate that the current requirements are met to successfully re-certify and be permitted to continue to use the designation.

There are two (2) options for meeting the requirements prior to your Certification expiration date:

- Earn points
- Pass the current Certification exam.

### Maintenance of Certification – Two Options

<table>
<thead>
<tr>
<th>Option 1 – <strong>CCRA, CCRC, ACRP-CP Only</strong> Earn Points</th>
<th>Continuing Education – Research Specific (required) 12</th>
<th>Continuing Education (research/healthcare) and/or Continuing Involvement 12</th>
<th>Total 24</th>
</tr>
</thead>
<tbody>
<tr>
<td>Option 1 – <strong>CPI Only</strong> Earn Points</td>
<td>Continuing Education – Research Specific (required) 8</td>
<td>Continuing Involvement (required) 12</td>
<td>Continuing Education and/or Continuing Involvement 4</td>
</tr>
<tr>
<td><strong>Option 2 – Maintenance by Exam for all</strong></td>
<td>Pass the current exam (CCRA, CCRC, CPI or ACRP-CP) prior to your Certification expiration date. Submittal of Maintenance application and fee are required by certification expiration.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
1. **Earn** a total of 24 points
   a. **CCRAs, CCRCs and ACRP-CPs only** – minimum of twelve (12) points from participation in *research-related* Continuing Education programs. The remaining twelve (12) points may be supplemented through Continuing Education program activities and/or Continuing Involvement activities.
   b. **CPIs only** – minimum of eight (8) points from participation in *research-related* Continuing Education programs and a minimum of twelve (12) points from Continuing Involvement activities. The remaining four (4) points may be supplemented through Continuing Education and/or Continuing Involvement activities.

2. **Report** all 24 points by the time of application.

3. **Submit application and payment**

   *Maintenance of your Certification is separate from ACRP membership renewal.*

**Continuing Education vs. Continuing Involvement: What’s the Difference?**

Continuing Education and Continuing Involvement are the two categories in which a certificant can participate in activities and earn points toward maintaining certification. Continuing Education is also referred to as “coursework” or “training”.

**What is Continuing Education?**

There are two types of continuing education relevant to YOUR certification:

- **Research Specific**
  Research Topics are defined as those that cover the actual “practice” of clinical research. Examples include Informed Consent, Ethics, GCP, Regulatory Affairs, etc.

- **Healthcare Specific**
  Disease/Bodily System/Healthcare Topics deal with the prevention, treatment, and management of illness and the preservation of physical well-being. Examples of this can include Oncology, Psychiatry, results of trial studies, etc.

**What is Continuing Involvement?**

Continuing Involvement is participation in a capacity other than learning. The certificant can be attending a meeting, serving/volunteering, presenting information, or providing oversight. Examples include attendance at Investigator Meetings, Site Initiation Visits, inclusions on a 1572, authoring a journal article, etc.
Continuing Involvement activities are:
- Always related to your role in clinical research.
- Sometimes required as part of one’s position.
- Required for CPIs.
- Optional CCRAs, CCRCs and ACRP-CPs.

Maintaining Certification through Participation in Continuing Education
CCRA®, CCRC®, CPI® and ACRP-CP® certificants must meet the following criteria by the Certification expiration date. Information about each of these requirements is found in the sections that follow.

Research Program Topics
For Maintenance purposes, Research Topics are defined as those that cover the actual “practice” of clinical research and follow topics covered on the Detailed Content Outline (DCO) for your designation. These topics should cover transferrable knowledge and skills, not those specific to your workplace, such as company SOPs, protocols, or specific software. Examples of Research Topics include, but are not limited to:
- Trial Management
- Investigational Product Management
- Protocol Development
- Safety
- Human Subject Protection
- Document Management
- Trial Oversight
- Ethics
- Adverse Events
- Informed Consent
- Good Clinical Practice (GCP)
- ICH Guidelines
- Regulatory Issues
- Monitoring
- Statistics

To view more acceptable Research Topics, visit the appropriate link below:
- CCRA Detailed Content Outline (DCO)
- CCRC Detailed Content Outline (DCO)
- CPI Detailed Content Outline (DCO)
- ACRP-CP Detailed Content Outline (DCO)
Healthcare Program Topics

Healthcare Topics are those that deal with the prevention, treatment, and management of illness and the preservation of physical well-being. Training to gain access or query a specific database or software, even if healthcare related, is not acceptable. Consideration is also given to specific skills that, while not clinical research or healthcare related, are acknowledged as an advanced set of skills invaluable to the work of clinical research. These specifically include: project management, grant writing and medical writing.

Courses pertaining to a particular disease are generally considered to be Healthcare Topic hours. Examples include, but are not limited to:

- Pharmacology
- Medical devices
- Soft Skills
- Palliative / Hospice care
- Psychiatry
- Oncology
- Endocrinology
- Cystic Fibrosis
- Results of clinical trial studies
- Advanced Cardiac Life Support (ACLS) course (This course is only acceptable once during the lifetime of the certificant’s Certification tenure.)

Acceptable Providers of Accredited Continuing Education

Programs completed through acceptable accredited providers with a certificate of hours/points or those pre-approved by the ACRP may be claimed.

If the program does not have accreditation from a known accrediting body (See “Examples of Acceptable Providers” chart below), the applicant must submit the program details for approval. E-mail support@acrnet.org, at any time, with the course title, timed agenda/course overview, and objectives.

</tr>
</tbody>
</table>

*In-company training on research topics with specific learning objectives awarding a certificate/proof of attendance and specifying the number of hours. *(Note: SOP, protocol specific and software training are not acceptable.)*

Courses which are not acceptable for Maintenance purposes include but are not limited to those with topics in CPR or BLS training, first responder or blood pressure training, or soft skills *(i.e. time management or working with difficult people).*
Determining the Length of Continuing Education Activities

A certificate indicating the number of hours received must have been awarded for all web-based training. The Academy cannot determine the number of points for web-based training and reserves the right to request certificates of attendance and/or transcripts from any reported activities.

For participation in workshops, seminars, conferences and in-service trainings, points are awarded according to the actual amount of time spent under instruction, at a ratio of 1:1. That is one (1) hour awards one (1) point.

Sessions less than 45 minutes in duration are not accepted. Sessions forty-five (45) minutes to one (1) hour in length are awarded one (1) point. Points can be pro-rated for sessions exceeding sixty (60) minutes (i.e., a session one hour and fifteen minutes in length = 1.25 points).

Certificates of completion may use different terms to represent “points”. The chart below displays the point conversions and different terms used to refer to points.

<table>

</table>

If it is unclear how many hours may be claimed for a course, please contact the course provider to request written verification of the course length prior to submitting any information to ACRP for review.
Continuing Involvement Activities – CCRA, CCRC & ACRP-CP Only

Continuing Involvement is another area in which a candidate for Maintenance can earn points toward the stated Maintenance requirements. These are activities other than participating in a continuing education event. Continuing Involvement is not required to maintain a CCRA, CCRC or ACRP-CP certification. Continuing Involvement activities are always related to your role in clinical research and sometimes required as part of one’s position.

The following chart lists activities that are currently awarded Continuing Involvement Points for Maintenance purposes. These activities must be listed online through the “My CCRA/CCRC/ACRP-CP Certification” link within your ACRP profile.

<table>

Continuing Involvement Activities – CPI Only

Continuing Involvement is a way of making sure that CPIs are still involved in clinical research in a meaningful way. Continuing Involvement is participation in a capacity other than learning. Continuing Involvement activities are always related to your role in clinical research and are sometimes required as part of one’s position.

CPIs MUST submit at least 12 points from the activities chart below. Continuing Involvement activities must be listed online through the “My CPI Certification” link within your ACRP profile.

<table>
<thead>
<tr>

</table>
| Service on an association’s clinical research-related committee (Editorial Advisory Board, Conference Session Review, Regulatory Affairs Committee permitted) | 4            | per 12 months of service | 8     | Proof of participation
Presentations and articles must be in clinical research-related topics in order to be considered for points.

- **Presentation Development and Delivery**: A single presentation can be claimed only once per year. The same presentation can be counted a second time the following year only if the presentation required significant updates prior to being presented again.
  - Certificants are permitted to include presentations they were paid to develop and present to the extent allowed by the above chart. Certificants cannot claim participation points for programs that they present, only Continuing Involvement points.

- **Authorship** of an article pertaining to Clinical Research
  - Certificants are not required to be the primary author to be able to claim points for a published article.
  - An article must be published within the appropriate time frame for the current Maintenance cycle.

**Maintenance Document Verification Process**

The Academy conducts a random verification of the Maintenance applications received. Candidates whose applications are selected, will be e-mailed notification requesting copies of certificates of completion and other documentation substantiating the points claimed for the current Maintenance period.

If a certificant does not comply with the request for documentation by the date set forth in the notice, the Academy may revoke the certificant’s Certification.

If it is determined that a certificant’s submission does not meet the Maintenance program requirements, the certificant will be asked to rectify the discrepancy by a specific date. If the certificant does not comply by the set forth date, the Academy may revoke the certificant’s Certification.

It is recommended that certificants keep a file of all documentation supporting the claim for points until their next Maintenance period is completed.
Taking the Exam for Maintenance

Taking and passing the current form of the exam is acceptable and satisfies all Maintenance point requirements (i.e., all 24 points). The exam must be taken and passed before the candidate’s Certification expires. A candidate must then submit a copy of his/her score report with the Maintenance application. This would include taking another Academy Certification exam to obtain an additional credential (i.e., a CCRC® taking the CCRA® exam in order to also achieve the CCRA® designation.)

To use the Exam for Maintenance purposes, these steps must be followed before the Certification expires:

- Apply for the exam using the Maintenance by Examination Form in accordance with the regular exam window deadlines. The exam is offered at a reduced fee because no application review is required.
- Take and pass the exam.
- Apply for Maintenance in accordance with the regular process and deadlines—submit an application with payment and upload/attach a copy of the score report.

If a candidate wishes to use the exam for another Academy designation, as in the example above, for Maintenance he or she must still submit an exam application with full payment, undergo application review and be deemed eligible for that program. In this instance, the Maintenance by Examination Form cannot be used.

If a candidate is unsuccessful on the examination, he or she may still submit the necessary 24 points to satisfy the Maintenance requirements before the Certification expires.

Points Reporting

Continuing Education and Continuing Involvement activities (or Maintenance by Examination) that satisfy the Maintenance requirements must be completed and reported within the appropriate timeframe for a candidate’s Maintenance period, as shown below.

Points must be earned two years prior to your Certification expiration date. Only points earned between the following dates will be considered:

- June 1, 2017 – May 31, 2019 (Certifications expiring May 2019)
  *If you earned ACRP Certification in 2017, you may report points earned as early as April 2017.

- December 1, 2017 – November 30, 2019 (Certifications expiring November 2019)

All points earned through ACRP are automatically reported to the candidate’s record upon completion of the continuing education activity evaluation. All points can be viewed by logging into your profile.
within the ACRP website and clicking on the “My CCRA/CCRC/CPI/ACRP-CP Certification” link. If ACRP points are not listed, go to the “My Learning Portal” link to complete the activity and the evaluation.

The candidate can view and report points at any time during the two (2) year period. All Continuing Education and Continuing Involvement activities not reported by ACRP must be self-reported using one of these methods:

- **Online** – At any time, log on to [www.acrpnet.org](http://www.acrpnet.org) with your e-mail address and password; click “My Account” then “My Profile”. From there, select the account link that reads “My CCRA/CCRC/CPI/ACRP-CP Certification”. Click on the “Activities Points Requirement” Link.
- **During application process** – Please have all activities details ready to report before starting the online application process. You will not be able to submit your application and payment until you have met the activities points requirement.

Report the following information about each activity:
- Activity Type – research or healthcare (other)
- Provider
- Activity Name
- Activity Length in Minutes (optional)
- Activity Points
- Date Completed

All documents for Maintenance must have the name of course, date, number of contact hours, and the participant’s name printed on the certificate to be acceptable for credit. All other information listed is required for completing the Maintenance application and is the certificant’s responsibility to obtain.

Please do not include or upload certificates of completion during the points reporting or application process. This documentation is requested from candidates who are selected for the random Maintenance Documentation Verification Process only (see Maintenance Document Verification Process section). It is recommended to keep all documentation supporting the claim for hours/points until their next Maintenance cycle is completed. The Academy reserves the right to request further documentation.

**Accessing the Application**

Applications can be submitted approximately four (4) months prior to your Certification expiration. Remember to first update your ACRP Membership status if you plan to take advantage of the member rate for maintaining.
To apply online follow these steps:

- Log onto the ACRP website with user id and password. Click on “My Account”, then “My Profile”.
- Under Account Links, select “My CCRA/CCRC/CPI/ACRP-CP Certification”
- If you have all your required points entered into your account, click the blue button that reads “Submit Maintenance Fee”.
- If you have not yet earned/entered your 24 required points, click the link that reads “Activity Points Requirement” to view a breakdown of your current points and to also add points. Once you have entered the required amount, the blue “Submit Maintenance Fee” button will appear.

For check or money transfer transactions, the points requirement must be completed first.

**Payment & Fees**

Payment must be submitted simultaneously with the Maintenance Application and twenty (24) points. Rates for Maintenance of Certification can be calculated on the Maintenance webpage and are displayed in the chart below.

</tbody>
</table>

*Maintenance of Certification* fees are non-refundable. It is the certificant’s responsibility to meet the program requirements and timelines. If an incomplete or deficient submission is made and not rectified by the Certification expiration date, all fees will be forfeited and the certificant will lose the designation.
Late Fees
All applications received via e-mail, fax, or postmarked after the May 31 expiration dates (whichever applies) will be assessed a $75 late fee in addition to the Maintenance fee.

The Academy will attempt to notify all certificants at their last known mailing and e-mail address approximately four (4) months prior to the expiration date of their current Certification. However, it is ultimately the responsibility of the certificant to monitor his/her Certification expiration date and submit all program requirements by the set deadlines.

Dual Certificant Discount
If more than one of the Academy’s credentials is held, the certificant may maintain both designations at the same time, which will roll both expiration dates forward by two (2) years. By maintaining together, the certificant will receive a $50 USD discount and only needs to submit a total of 24 points.

If maintained separately, the certificant will pay the full price for each credential, and must submit separate points for each designation, for a total of 48 points.

Notification of Review
Your Maintenance submission goes through review for compliance with the requirements once it has been received. Upon successful review of meeting the requirements, applicants receive an e-mail notice confirming that the Certification has been extended for two (2) years and that an updated certificate will be sent in the mail. The review process may take up to 2 weeks.

To request a duplicate or electronic copy of a certificate, please contact support@acrpnet.org.

Non-Compliance of the Maintenance Requirements
Candidates for Maintenance are expected to submit an application for Maintenance that fulfills all the necessary requirements no later than his/her Certification expiration date. A candidate will be considered non-compliant if:

- no application for Maintenance was submitted;
- if the application submitted does not meet the stipulated requirements and the candidate has not rectified any deficiencies; or
- if randomly selected, the candidate has not satisfied the requirements of the Document Verification Process.

If compliance is not achieved by the Certification expiration date, the candidate’s Certification will expire and the designation will be permanently removed from his/her record. The individual must stop using
the designation and/or representing him or herself as certified. In order to become certified again, applying for Certification and passing the exam is required.

**Extenuating Circumstances**

The Academy will take under consideration, on a case-by-case basis, extenuating circumstances that have prevented a certificant from being able to earn the program requirements during the two-year **Maintenance** cycle. Examples include significant personal illness or family crisis and military deployment. (Circumstances that will **not** be considered include: change of address so that notices were not received; work schedules; long work hours; maternity/paternity leave; or failure to realize that he/she is due to maintain). Requirements cannot be waived but specific timeframes may be.

It is the responsibility of the certificant to notify the **Certification** program staff as soon as possible, but **prior** to his/her **Certification** expiration date, of such an occurrence. The initial notice should be submitted via e-mail to support@acrpnet.org and include the certificant’s name, circumstance, and phone number.

**Frequently Asked Questions (FAQs)**

**Q:** Where can I find the **Maintenance** application?
**A:** Application are available online approximately four (4) months prior to your Certification’s expiration date. To access, log onto the ACRP website with your user id and password. Click on ‘My Account’ and then ‘My Profile’. Select the account link that reads ‘My CCRA/CCRC/CPI/ACRP-CP Certification’. Once the activities have been added and the points have been met, a blue ‘Submit Maintenance Fee’ appears. Click on that to proceed with submittal and payment.

**Q:** What if I am paying by check?
**A:** If you are paying by check you must submit a **printable Maintenance application**. Payment will only be processed if the required points have been added to your online record.

**Q:** How can I be sure you received my **Maintenance** application?
**A:** You will receive an automatic e-mail receipt once your payment has been processed.

**Q:** How will I be notified if my application was approved?
**A:** An e-mail notification will be sent upon successful completion of your **Maintenance** application. A certificate will be mailed within three weeks to the address that is listed on file. Also, log onto your profile on the ACRP website and confirm the expiration date of your **Certification**. When **Maintenance** is successful, your **Certification** expiration date will advance two (2) years.
Q: I submitted my payment, why do I keep receiving notices that I need to maintain my Certification?
A: Please log onto your profile on the ACRP website and confirm the expiration date of your Certification. When Maintenance is successful, your Certification expiration date will advance two years. If your application was not received (your expiration date has not changed in the registry), then verify that the payment submitted was for Maintenance and not membership renewal. ACRP Membership and Maintenance of Certification are separate programs requiring separate applications and fees.

Q: How do I add my hours/points?
A: Contact hours/points (activities) can be entered by logging onto your profile on the ACRP website. Click on the account link that reads ‘My CCRA/CCRC/CPI/ACRP-CP Certification’. Click on ‘Activity Points Required’ link. From there, click on either the CE (continuing education for research or healthcare activities) or CI (continuing involvement) button to add your activities.

Q: What are the types of points I can submit for maintenance?
A: Continuing Education (Research, Healthcare), and Continuing Involvement. Be sure to read the Maintenance Handbook for points/hours requirements.

Q: What is the definition of each continuing education topic area?
A: Candidates for Maintenance can take continuing education offerings in two (2) topic areas.
   • Research – topics that cover the actual ‘practice’ of clinical research and follow the Detailed Content Outline (DCO) for that specific designation.
   • Healthcare – topics that cover the prevention, treatment, and management of illness and the preservation of physical well-being.

Q: What date do I use?
A: Enter the date that you attended or completed the program. If the program was longer than one day, enter the last day of the event.

Q: Do I have to upload/submit my course certificates at the time of Maintenance?
A: This is not required. Records of certificates should be kept in case you are randomly selected to participate in the Verification process.

Q: What if I don’t have any points? What other option do I have to maintain my Certification?
A: As an alternative to earning points, you can take and successfully complete the current form of the Exam for your credential prior to your Certification expiration date.

Q: What if I want to maintain two credentials simultaneously?
A: If you hold two or more ACRP Certifications, you may maintain both certifications at the same time and receive a $50 discount. Another benefit of maintaining both designations
simultaneously is that the 24 points can be applied to both designations. Done separately, a total of 48 points must be completed (24 points for each credential).

Q: I added my hours/points and submitted payment. Is that all I need to do?
A: Adding hours/points and submitting payment is completing the Maintenance application. Once your application is submitted, please allow up to two weeks for review. An updated certificate will be mailed out three weeks after completion of maintenance.

Q: Will my ACRP Membership dues cover my Maintenance fees?
A: No. Membership and Maintenance of Certification are two separate programs. Membership is renewed annually, while Maintenance is due every two (2) years.

Please note: The Academy does not invoice for Certification. If you received an invoice, it was to renew your Membership in ACRP. A separate fee needs to be paid (as part of an application) to maintain your Certification.

Q: Do I have to be an ACRP Member in order to maintain my Certification?
A: Membership is not required however, the maintenance fee is reduced for members.

Q: If I did not fulfill the Maintenance requirements but have already submitted my payment, will I receive a refund?
A: Maintenance of Certification fees cover the review of your application and therefore are non-refundable. It is the certificant’s responsibility to be compliant with the program requirements and timelines. If an incomplete or deficient submission is made and not maintained by the required deadlines, all fees will be forfeited and the certificant will no longer be permitted to use the designation.
