

2021 Board Needs

After discussing key takeaways/common themes from the Board Needs Survey (completed by 13 of 15 current board members), the Governance Committee has developed draft needs for the 2021 Board of Trustees for ABoT discussion and input.

Once finalized this list will be given to the Nominating Committee for identifying and recruiting prospective nominees for the Board. Please review the recommended criteria for prospective board members and come prepared to discuss any edits/additions at our March 17 Board of Trustees meeting.

2021 Board Needs

- A proven, well-connected and respected thought change leader with strategic visionary and management skills.
- Significant experience in clinical research and/or the pharmaceutical industry.
- Strong communication and listening skills with the ability to work collaboratively.
- Demonstrated passion for achieving ACRP's mission and advancing the clinical research enterprise including exceptional dedication to ACRP through committee service and other avenues.
- Financial acumen with fundraising expertise and a key understanding of the economic realities of nonprofits.
- A young emerging leader who is challenge oriented and has demonstrated a high level of achievement in their current role.
