Clinical Trials Day Is May 20, 2022!

Clinical Trials Day is celebrated around the world in May. Find ACRP Clinical Trials Day Resources [here](#).

EVENT RECOMMENDATIONS

- **Networking:** *Celebrating You*—feature 3 people from your chapter who have unique contributions to the industry; host a clinical trials day party; present an [Ignite!](#) event.
- **Community Service:** *Giving Back*—organize an event at a local food bank or other community non-profit; feel good and raise awareness of your chapter!
- **Educational:** *Professional Growth*—offer a program featuring what can be done to better the clinical trials field or how to enhance ethics in clinical trials.
 - Speaker Idea 1: Joy Jurnack, Quality Assurance Specialist, Care Access, *Ethics in Clinical Research* or *Workforce Development*, joyjurnackrn@gmail.com
 - Speaker Idea 2: David Vulcano, VP & Responsible Executive, Clinical Research, HCA Health Care, *Future of the Clinical Research Industry*, david.vulcano@hcahealthcare.com

EVENT TIPS

- Consider new formats: Roundtable; Lunch and Learn; Case Study
- Open your event with the Clinical Research Professional Hero Reel—debuting at ACRP's 2022 Conference; coming to you soon from HQ

ACRP provides chapters quarterly content to boost their educational offerings to chapter members. Our first Education Kit has a twist, as we celebrate YOU, clinical research professionals, and all you do every day to improve public health. Chapter leaders are encouraged to use these ideas to engage chapter members in May.

Clinical Trials Day History

Honors May 20, 1747 start of James Lind's study of diets on the effects of scurvy for the British Royal Navy—what is now considered the first randomized clinical trial. [Learn more.](#)
